

Welcome

Dear Friends,

Since our establishment in 1943, we at Restaurant & Store have constantly strived to fulfill your foodservice needs. As an added convenience to our customers, we are pleased to present our new catalog. Included in this publication are many of the items that will assist you in ordering the majority of your day-to-day needs. However limited space prevents us from showing many other items that are also available. We invite you to visit our 11,000 square foot showroom, where many of the items shown in our catalog are on display.

If you are interested in any item not shown, please let us know, as our knowledgeable representatives are ready to assist you. Along with a knowledgeable sales team, we also have a complete design department, custom sheet metal fabrication department, and a parts and service department to keep you up and running.

To better serve our customers outside the immediate Salt Lake area, we provide a toll-free number for placing orders. We look forward to serving you. 1- 800-877-0087.

Restaurant & Store

Sincerely,

L. Reid Steenblik
President

Showroom

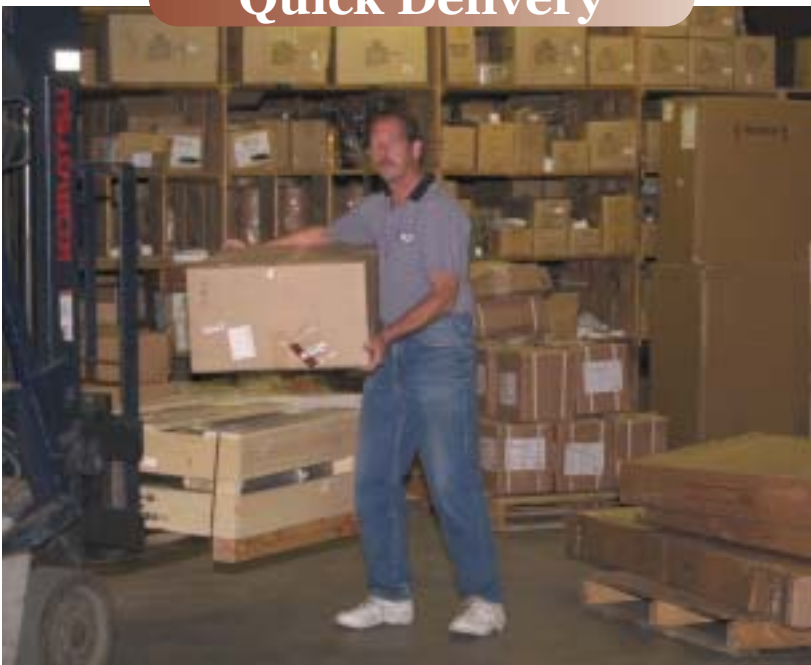

Come in and browse our spacious, 11,000 square foot showroom for the latest in equipment and supplies. Our experienced staff will provide solutions to help you meet your needs, and offer you plenty of ideas.

Custom Fabrication

We have been designing and installing custom stainless steel fabrication for fifty years. Let us bid on your counter tops, sinks, and vent hood systems.

Quick Delivery

RESCO has the region's largest inventory of foodservice supplies and equipment, and in most cases we can deliver within 24 hours.

Parts & Service

With service staff on-call 24-hours a day, we can keep your equipment up and running. Fast service is just a phone call away.

Contract & Design

LeGrande Steenblik

In 1943 when Joe Steenblik started this business, one of the first things he did was to properly design kitchens for restaurants. Through the years our customers have enjoyed this service. With the addition of computer technology, our drafting and design department has grown far beyond his vision of what we could offer our customers.

We invite you to come in and get acquainted with our design people, and enjoy browsing through our showroom. We continue to provide the same quality service six decades later.

China & Dinnerware

Receptions' amazingly lightweight and delicate feel and sophisticated thinness belie its enormous strength. It is resistant to mechanical and thermal shock, chipping, scratching, and scoring. This durability combined with Reception's ultra-thin stackability and its low cost make it the most economical china choice for institutional or restaurant use. Stocked in Bone White, it is also available in Gray, Black, White Undecorated, Black Band, Empire Green, Bordeaux Red, and Platinum Gray.

CAMBRO
DESIGNING THE FUTURE OF FOOD SERVICE

FLOOR MODEL FOOD BARS

Designed to get you in the self-service business profitably, without sacrificing convenience, durability or the stylish appearance of your dining area. Sneeze guards and end panels protect your patrons and thick insulation holds ice for hours. A handy faucet drains melted ice into a pail or attach a hose for added convenience.

<u>Item Number</u>	<u>Overall Exterior Dimensions</u>	<u>Full Size Pan Capacity</u>
4FBR	51" x 33 1/4" x 52 1/2"	3
5FBR	63 1/2" x 33 1/4" x 52 1/2"	4
6FBR	71 1/2" x 33 1/4" x 52 1/2"	5

ULTRA FOOD BARS

Offers the luxury of self-contained storage. The double convenience of quick-access sliding doors on both sides, plus three sizes to choose from, and you have a Food Bar that goes anywhere and does anything. Ultra Bars have food protection with wide sneeze guards and end panel shields, plus rounded edges which serve as a safety feature.

CAMCART®

These quality made units ensure the delivery of either hot-from-the-oven entrees or cold-from-the-cooler desserts. The tough, one-piece seamless, double-wall, polyethylene construction is easy to maintain and won't dent, crack, rust, chip or break. Thick polyurethane foam insulation and air-tight gaskets help to maintain food quality and temperatures for hours. Full swing doors open 270° to the side for easy loading and unloading. Molded-in handles allow for easy steering and the mold-in bumper minimizes damage to walls and furniture.

PORTABLE SNEEZE GUARDS

Designed for food offerings that are set up and taken down on a frequent basis. The High-Profile model should be used when a chafar or ice boat is used. Both are available in 2 to 6 foot models.

- | | |
|-------------------------|-------------------------------|
| 0800.....Folding, 2 ft. | 1630.....HiProfile 2 ft. |
| 0900.....Folding, 3 ft. | 1640.....HiProfile 3 ft. |
| 1000.....Folding, 4 ft. | 1650.....HiProfile 4 ft. |
| 1100.....Folding, 5 ft. | 60614008HiProfile 5 ft. |
| 1200.....Folding, 6 ft. | 1670.....HiProfile 6 ft. |

FOLDING PORTABLE HIGH-PROFILE SNEEZEGUARD SYSTEM

Our goal in developing the Folding Portable SneezeGuard System was to design a unit that is:

- Attractive - Enhances food presentation
- Durable - Retains its usefulness and attractive appearance
- Efficient - Provides for easy transport and storage without damage to equipment
- Labor Saving - Allows server to transport and set up as many as eighteen guards in one trip

These Folding Portable High-Profile SneezeGuards are designed for use over elevated food offerings when a chaffer or ice boat is used. The front of the High-Profile SneezeGuard is 18.5 inches from the top of the counter or table, the same distance as when using the Elevator Set in conjunction with the standard Folding Portable SneezeGuard. Folding Portable Low-Profile SneezeGuards are designed for correct 11" wrist opening situations, such as elementary school serving lines.

The Folding Portable High-Profile SneezeGuards should be used when there is a consistent use over elevated food offerings thereby eliminating the need for installing the elevators on a regular basis. The efficiency and labor saving features of our High-Profile SneezeGuard are maximized when they are used in conjunction with the Storcart for multiple use transport and storage or the Storcase for individual handling. We offer a special extender for our Storcart to handle the taller guards.

Buffet & Catering

CAMBRO SALAD CROCKS

Combining the stylish look of crockery with the durability and convenience of plastic, Cambro's Crocks are the ideal dressing or condiment containers for your salad bar. Smooth, easy-to-clean interior and exterior surfaces are made of FDA accepted material - unaffected by salad oils or mayonnaise. TEMPEST BLENDER

High torque 2+ hp motor for efficient, quieter operation. Three programmable cycles give you sets of pulses and speeds for precision blending. Rotary dial timer lets you vary the blending time for each cycle. High-Performance stainless steel cutting and mixing blades ensure smooth drinks without unwanted ice or fruit chunks. Electronic speed control with load sensor provides constant speed regardless of the load. With a 32 oz. Lexan® container, vinyl lid with filler-cap.
91555 Tempest Blender

For a wider selection of mixers and blenders, please see the Equipment Chapter.

1 & 3 SPINDLE DRINK MIXER

Perfect for milk shakes, smoothies, bar cocktails, eggs, batters, ice cream drinks, and more. Bartenders worldwide consider this drink mixer the standard because of its dependable performance. The three speed toggle switch is conveniently located for quick and easy access. Designed for durability, the stainless steel agitator crushes ice and cuts through hard ice cream. The motor automatically activates when the cup is placed in position on the drink mixer, and stops when the cup is removed. The automatic motor activation ensures perfect operation every time. 1/6 Hp. 120 Volts, 60 Hz.
555936.....1-Spindle Drink Mixer
555009503-Spindle Drink Mixer

TWO-STEP DRINK MACHINE

Put away that old granita machine; toss that slow moving blender; free up time for your servers to serve! Vita-Mix® makes it possible to blend the perfect granita, frozen coffee and tea, smoothie or margarita - all with the same machine. With a 2+ peak hp motor with 37,000 rpm motor speed, all stainless steel enclosed blade assembly with sealed ball bearings. Specially designed clear polycarbonate container is virtually unbreakable and lets you see inside. Blends as little as 4 oz. with the same consistency and quality as a full load. Now you can put ingredients in the blender, set the timer and walk away. The blender stops automatically!

6061230.....1230 Vita-Mix 2-Step Blender

CAMWEAR PITCHERS

Are these glass pitchers? Of course not, they are made of polycarbonate, the best alternative to glass. They won't chip or break. Polycarbonate construction assures long life, eliminates replacement costs and provides light-weight, easier handling for servers. Thumb-grip pour control and exclusive ice-control contoured lip and pour spout eliminate the mess associated with other pitchers. Camwear Pitchers are dishwasher safe and available in 5 styles and a variety of sizes. Slotted base helps drain water for complete and sanitary drying. Exclusive ice lip lets you control amount of ice with beverage. Broad base for stability, prevents tipping.

CAMLITERS

Wine decanters make a distinctive presentation at any table or buffet line. But glass is so impractical. It chips and breaks causing lost product or worse... an injury. Cambro has solved all of that by making these decanters out of polycarbonate. They won't chip or break. Also, they help save time. A spill-proof lid is included. Perfect for serving juice on a buffet, at a table or for room service. It allows you to fill and store beverages in off hours.

System, approved by the State of Utah

WUNDER-BAR® DISPENSING SYSTEM

Let us design and install a Wunder-Bar behind your bar, so you will have the "big guns" in liquor dispensing on your team!

With Wunder-Bar, the service flows. drinks are served accurately, consistently, and faster than ever before. The bartender holds as many as 16 different liquor brands in the palm of his hand, ready to pour a pre-measured amount in less than 1.5 seconds! Concerned about state-mandated requirements? No problem! Push the brand selection, and the system will automatically pour an accurate amount, pre-set to your desire. What about control? No problem! Each time a drink is poured or a drink size is varied, it is recorded, by shift and station, and made part of the system's beverage management report - which you may examine, anytime.

CONTROL & RECORD KEEPING

The beverage manager has full access to the information that is needed to manage the bar efficiently and effectively. This information is available daily, weekly, monthly.

Keep accurate daily track of your liquor records.

FIXED POINT CONSOLE

The underbar mount dispenser is offered for fixed-point dispensing.

BAR-GUN

Fixed hose faucets provide quick and easy access to as many as 16 brands of liquor on one dispenser.

STORAGE RACKS IN 4 SIZES

Bar management requires quick and easy access to accurate pour information. You'll receive timely and accurate reports that allow you to better calculate your pouring costs - and comply with state regulations. Your inventory will be easier to figure than ever before - more reliable too. Switching from 1 liter to 1.75 liter bottles will simplify storage, accounting and ordering.

Wunder-Bar's on-staff Electronic Engineers and microprocessor design allow for easy interfacing to a wide variety of point-of-sale systems and electronic cash registers. These optional features can be designed for your bar operation, or we offer programs that have been designed for other successful bar operations.

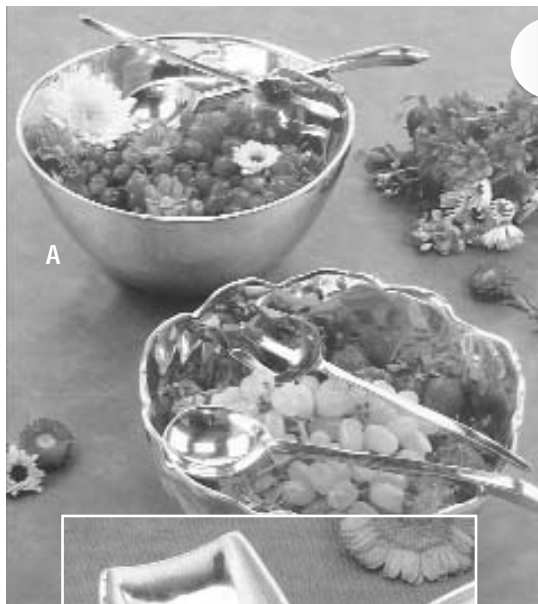

Call your RESCO representative to discuss a system that will meet your needs and increase your profits.

Wunder-Bar

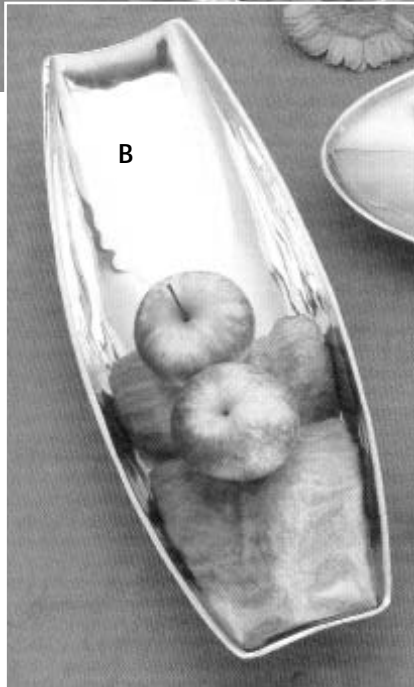

POLISHED CAST ALUMINUM TRAYS BY BALAAM INTERNATIONAL

These economical cast aluminum trays are hand polished and will not tarnish. For best results prechill or preheat to keep food warm or cold for hours. Hand wash with mild soap and dry immediately. Prime trays with light oil prior to use when fatty acids may be present.

Food Containers

CAMSQUARE CLEAR CONTAINERS

CamSquare® containers take up 33% less space than round containers! And, they are made from Camwear polycarbonate so they will actually bounce off a tile kitchen floor and not break! Printed graduations on the outside show you how much is inside. Color coded snap-tight covers feature tabs so they can be easily removed.

CAMBRO PAIL

Cambro's multipurpose polyethylene Pail is a real workhorse. Great for mixing, storing or transporting. Durable, stain resistant and dishwasher safe. The tab-off cover (optional) produces a great transporter. 5050232222 Qt Pail

CAMBRO

CAMBRO CLEAR ROUND CONTAINERS

The round shape promotes proper air circulation. The durable polycarbonate construction is virtually unbreakable. Plus, it withstands temperatures of -40°F to +210°F, so you can use them in just about any condition. Food acids, oils and alcohol won't stain or harm them. The molded-in handles offer convenience in lifting.

CUT RESISTANT GLOVES

Stainless steel threads are woven into glove fibers for superior resistance for all who work with sharp knives, slicers, etc. Help prevent painful and costly lacerations.

- 55503201Small
- 55503200Medium
- 55503202Large
- 55503204XLarge

NITRILE GLOVES

Sol-Vex gloves are made of a high-performance nitrile compound which provides an outstanding strength and chemical resistance. When exposed to solvents, as well as caustics and animal fats, Sol-Vex gloves are a superior choice over rubber or neoprene. They won't swell, weaken, or degrade, and they offer better protection against snags, punctures, abrasions, and cuts. And, as added benefits, Sol-Vex gloves do not promote contact dermatitis, and their component materials comply with FDA regulations for food contact. 19" long

- 80817300Size 9 Nitrile
- 80817301Size 10 Nitrile

NEOPRENE COATED GLOVES

Neoprene gloves offer broad-spectrum protection, with excellent resistance to a wide range of chemicals, including oils, acids, caustics, and solvents. The gloves are case hardened to increase chemical and abrasion resistance over ordinary neoprene gloves. 12" long.

- 80818036Large
- 80818037Size 9

RUBBER GLOVES

Made of natural rubber, 16" long.

- 80818034Medium
- 80818035Large

Cutting Boards

MAPLE CUTTING BOARDS

The finest kiln-dried hardwood cutting boards. Both sides are finished, making these boards reversible.

60613002

HOLMAN COMPACT CONVEYER TOASTERS

- Patented forced convection keeps the toaster cool to the touch and extends the life of critical components. The forced convection increases productivity by re-circulating pre-heated air into toasting chamber.
- Quartz infrared heaters provide faster, more consistent heating than traditional heating elements.
- 606613004 requires only 14.5" of counter space and our patented forced convection system allows the unit to be placed against a wall. Other toasters have louvers requiring additional counter space.

- 5553.....Mica 4-Slot Standard Toaster

HATCO GLO-RAY INFRARED FOODWARMERS

Keep all hot foods at optimum serving temperatures longer. Foods do not dry out or become discolored; even the most delicate dishes hold that "just-prepared" look. The Glo-Ray pre-focused heat pattern directs heat from a tubular element to bathe the entire holding surface

- Optional breath protectors can be ordered with most aluminum Glo-Ray models and meet NSF standards.
 - The Designer color option helps blend warmers into any decor.
 - On/off switch installs front or back of the unit to suit the location.
 - 115 volts, specify aluminum high watt or aluminum standard watt

Can be Counter-Top or Range Mounted!

WOLF SUPER CHARBROILERS

Innovative design with finned cast alloy radiants that produce infrared rays to seal in the juices. Steaks, chops, hamburgers and seafoods have a delicious, charcoal-broiled flavor! Plus: Flame-Arrestor grates with cast-in pitched grease trough on each blade; automatic burner lighting; individually controlled direct action burners; reflector baffle under each burner which creates a "cool zone" in the grease drawer. Counter models are 27-1/4" deep in seven widths: 25", 30", 36", 47", 60", 72" and 84".

Base Section:One base section (oven only)

Mark V Xcel

DFG-50

**Blodgett DFG-50 HALF SIZE
GAS CONVECTION OVEN**

- Full angle-iron frame
- Stainless steel front, back top, sides and legs
- Dual pane thermal glass window
- Four-inch stainless steel legs for single unit; 7-inch stainless steel stand for double unit
- Single chrome-plated door handle
- Double-sided porcelain baking compartment, 5 chrome-plated racks, 9 rack positions with a minimum of 1-5/8 (41mm) spacing
- 27,500 BTU/hr per single unit; 55,000 BTU/hr. per double unit
- Electronic spark ignition control system
- Removable dual tube burner
- Flue vent for each section

BLODGETT GAS PIZZA DECK OVEN

Now standard with Ultra-Rockite deck and 50,000 BTUs per section. S/S front, top, sides and back with rigid angle iron frame. Baking compartment is 42" w x 32" deep x 7" h. Counterbalanced doors with heavy chrome-plated tubular steel handles. Aluminized steel combustion chamber & baking compartment. 2-year warranty.

961P

**BLODGETT SMART GENERATION
CONVEYOR OVEN**

A breakthrough in conveyor oven technology, delivering more consistent results and increased capacity. These ovens cook faster at lower temperature, and use less energy for greater efficiency. An enhanced airflow design features convection fans that circulate air in opposite directions, forcing heat to surround and penetrate food evenly across the full width of the conveyor belt.

CADCO HALF & QUARTER SIZE ELECTRIC CONVECTION OVENS

High performance convection ovens designed for use on a countertop or an oven stand. Will handle up to 3 sheet pans with no rotation necessary. High-speed fan for even air distribution. 120v, 1500w, 12.5 amp. 1/4 Size Ovens accommodate standard 1/4 size sheet pans and standard 2-1/2" deep half size steam table pans. Half Size Ovens accommodate standard half size sheet pans and standard 2-1/2" deep half size steam table pans.

6060011Quarter Size

6060012Half Size

DUKE FULL SIZE CONVECTION OVENS

Duke Convection Ovens have better cooking performance than the competition with less energy input (40,000 BTU vs. 50,000 or 60,000 for other gas ovens). With four (4) inches more cavity height with the same exterior height as the competition you get more room for

your money. Coved corners are in the cavities, with no seams on the bottom, making cleaning a snap.

**FRYMASTER
ECONOMY
GAS FRYERS**

Versatile fryers with sensitive, fast action thermostats for quick sensing of cold food in the fry pot. Open pot design is totally cleanable for longer oil life and great tasting food. Large heat transfer area for more product per load. GF 14 is 30-40# capacity, 4200 ft elev., 100,000 BTU, 65# fries per hour, GF40 is 40-50# capacity, 122,000 BTU, produces 80# fries per hour. Casters optional.
60615002GF14SP Stainless Steel pot

Frymaster MJ35

**FRYMASTER
ALL PURPOSE
GAS FRYER**

Versatile, high-performance, low-maintenance. With an open frypot design with no tubes for easy cleaning and a large heat transfer area for more product per load. S/S frypot, and center-line thermostatic controls for precision control and rapid response. 10,000 BTU, 65# fries per hour. Casters optional.
60615004MJ35SD S/S Pot

**FRYMASTER
HIGH VOLUME
GAS FRYER**

Specifically designed for high volume production. Easy-to-clean open pot design, with no tubes. Deep cold zone with 1-1/4" IPS ball-type drain valve. Multiple orifice burner with no tube radiants to burn out, no cleaning or adjusting air shutters, no electric connection required. Casters optional.
60615006GF40SD S/S Pot and Door

**FRYMASTER
GAS FRYER**

Specifically designed for chicken, fish and breaded products. Easy-to-clean open pot design, with no tubes. Deep cold zone with 1-1/4" IPS ball-type drain valve. Centerline thermostat, 7 - 10 sec. response to loads, 1° anticipating action, reduced temp. overshoot. Stainless steel frypot. Multiple orifice burner with no tube radiants to burn out, no cleaning or adjusting air shutters. Casters optional.
MJCFS/S Pot

FILTER MAGIC® SYSTEMS

The fast, safe, simple-to-use systems for a more consistent, higher quality product, and longer lasting shortener life. The industry's first hands-off filtering system sets the standard for cost savings, safety, ease-of-operation, and dependability. This built-in system features washdown and instant-change filter - with no hot hoses to handle. Filters in just 3 to 5 minutes and one fryer can be filtering while the others are frying.
FM245B

SPAGHETTI MAGIC® SYSTEMS

Frymaster's new state-of-the-art Pasta Cooker delivers incredibly large amounts of quality cooked pasta automatically, reliably, and inexpensively. It incorporates all the labor-saving features you need, such as: solid state programmable controls, easy-to-clean NSF approved cookpot, optional auto fill and auto skim features. It will deliver up to 1,080, 10-oz. servings per hour (8SMS), or 1,440, 10-oz servings per hour (GSMS).

GROEN VORTEX™ CONVECTIONLESS STEAMER

Vortex™ combines the benefits of a convectionless steamer with the power of convection cooking. This results in ease of cooking, even temperatures, and superior food quality. Convection cooking in a convectionless steamer. 3 and 6-pan units can be stacked to create 6 or 12-pan units. No boiler, water treatment filters, daily blow downs, or deliming required. Reduces preventative maintenance. Easy to clean and maintain. Substantial savings in labor and supplies. No drain or water hook-up required. Self-contained unit holds 4 gallons of ordinary tap water for lower installation costs and flexibility of placement in the kitchen. Dry heating element. The heating element is not immersed in water for minimal maintenance and to eliminate the need to delime the heating element. Standard "hold feature" holds food for hours allowing control of food quality. 90 minute timer with buzzer.
 60606000HY-3E Vortex 3-Pan Steamer

GROEN PREFILTER SYSTEM & PREFILTER REPLACEMENT CARTRIDGES

The PureSteem™ Prefilter System is designed to address sediment build-up problems caused by high particulate water supplies. Can be easily connected to existing PureSteem™ Water Treatment System installations, prolonging the life of the filters. Includes a mounting bracket and a 5-micron filter encased in a clear housing container.
 55539025.....Prefilter System w/2 Cartridges
 55539026.....Replacement Filter Kit, A & B Cartridges

GROEN STEAM JACKETED KETTLES

We carry Kettles for all your needs, in gas & electric; Stationary and Tilting; Tabletop and Floor Mount; from 10 quart capacity to 100 gallons. Call us for more information.

GROEN TILTED BRAISING PANS

We carry Braising Pans for all your needs, in gas & electric; Tabletop and Open leg Floor Mounted; in sizes from 10 gallons to 40 gallons. Call us for more information.

SMARTSTEAM™ BOILERLESS STEAMERS

The gas-powered SmartSteam boilerless steamer produces 62,000 BTUs per cavity. Our electric model generates 14.4 KW of cooking power per cavity. The result is the fastest preheat and cook times in the business. Forget about recovery issues. Get rid of the boiler, get rid of the water hassles. SmartSteam boilerless steamers can use even poor-quality tap water, which means no costly water treatment filters. They also never need deliming. Just wipe them down and you're done. And the interior mirror finish makes it that much easier.

LINCOLN IMPINGER OVENS

Impinger Ovens provide even cooking, consistent quality and greatly reduced baking times for a wide variety of foods, including most Italian and Mexican cuisine. In the patented air impingement process, jets of high velocity air strike the food product and seal the moisture and flavor. Impinger Ovens are ideal for fast production of foods such as pizza, pasta, seafood, sandwiches and more. Available in free-standing and countertop models, and with single, double or triple deck units.

EAGLE OPEN BASE HOT FOOD TABLES

Stainless steel top and stainless steel wrapper, galvanized legs, and undershelf. Recessed control panel and standard 1-1/4" cutting board attachable to both sides of the table. All hot food tables are designed to accommodate our exclusive Flex-Master® Overshelf System, including optional heatlamp feature

ALTO-SHAAM LOW TEMP COOK & HOLD

Manual, adjustable thermostats and twelve-hour cooking timer. Single compartment oven with 20 gauge stainless steel exterior. Holds eight full-size sheet pans. Stackable design. 1000-TH-II pictured at right includes two single compartment ovens, stacked, stacking hardware and 5" heavy duty casters. 1000-TH-II3,000 watt, Single Unit
1000-TH-I.....6,000 watt, Double Unit

HALO HEAT

Alto-Shaam cook and hold ovens utilize an electric thermal cable wrapped around the entire cooking & holding chamber. This element creates a gentle blanket or halo of radiant heat surrounding food with a uniform temperature and no air movement inside the oven cavity. This patented method of low temperature cooking preserves the natural product moisture. Alto-Shaam low temperature cook and hold ovens require no outside venting or oven hoods, a major cost factor in any kitchen. With only one-third to one-half the energy consumption of a standard convection or deck oven, labor-saving set-and-forget controls, you'll see a return on your investment within a very short time.

CO-151-H-189B

CRES COR ROAST-N-HOLD™ GENTLE CONVECTION OVENS

Roast, cook, bake, rethermalize and hold with precise temperature and humidity control. Slow convected air system promotes natural browning for flavor and seals in natural juices. Moist heat, dry heat or a combination of both allows for a variety of food preparation and holding. Full 8200 Watts of power allows for rethermalizing of prepared meals or bulk items. Maximum temperature 350°F. 1850 Watt water heater with separate control and low water indicator. Energy Management Logic system electronically directs power to where it is needed most during different operating cycles. Pre-setting automatic controls for roasting and holding cycles allows for unattended operation 24 hours a day. Roast and hold over 300 lbs. (136 kg.) of meat in just 7 sq. ft. of floor space.

INSULATED HOLDING CABINETS

Fully insulated holding cabinet keeps prepared foods at serving temperatures. Powerful, yet efficient, 1500 Watt heating system maintains the right temperature to properly hold products. Heats up to 200°F.

NON-INSULATED HOLDING CABINETS

Non-Insulated holding cabinet to keep prepared foods at serving temperatures. Powerful, yet efficient, heating system maintains the right combination of heat and humidity to properly hold products. 2000 Watt heater holds foods at up to 180°F.

LAKESIDE STAINLESS STEEL 500 LB. UTILITY CARTS

Made of durable stainless steel for transport & bussing, with casters.

Storage & Transport

Dunnage Racks
(special order)

WINHOLT LUG TOTEALL

Ideal for transporting and storing warm or cold food products. High density, polyethylene construction. Will not rust or dent. Smooth interior and wide radius corners for easy cleaning.
555104432

MARS® AIR CURTAINS

Air curtains stabilize environments, and save energy by minimizing the heated/air conditioned air loss through open doorways. They also effectively repel flying insects, dust and pollutants. Call us to determine the right application for your needs.

Can Rack Systems
(special order)

WINHOLT CAN RACK

Convenient can rack will hold and dispense " 162 #10 cans.
25-1/4" w X 35" d X 71" h
606162 . . . CR-162 Can Rack

WINHOLT LOCKERS

From garment lockers to multi-tier locker systems, we have a selection of lockers for you needs. Special order.

WINHOLT PAN RACK

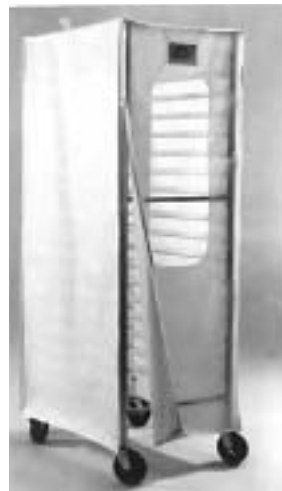

Aluminum rack will hold 18" x 20" sheet pans.
6061820

CURTRON STRIP DOOR

Slash refrigeration costs with Curtron Strip Door. Curtron Strip Doors help maintain steady holding temperatures in walk-in coolers and freezers regardless of how long or how often the door is left open. The special low-temp polar nylon reinforced vinyl straps stay flexible in the cold. Installs in minutes, with quick payback. Fits doorways up to 36"W x 78"H.

5554080

CURTRON PROTECTOR RACK COVER

Durable cover for open pan racks prevents freezer burn, dehydration and odor transfer. Helps maintain food temperature. Protects food freshness and sanitation. Made of specially reinforced fabric that is virtually indestructible. With clear window and info pocket. 23"W x 28"D x 62"H end load.

55537250

VICTORY 1 AND 2 DOOR REFRIGERATORS & FREEZERS

- Stainless steel fronts for durability
- Polished aluminum sides
- Energy efficient ABS thermal breakers around door jamb
- Adjustable 6" legs
- Recessed interior lighting
- Exterior dial thermometer
- Lifetime self-closing cam-lift hinges with 120° stay-open feature
- Self-adjusting magnetic door gaskets
- Heavy duty cylinder locks
- Durable and Energy Efficient ABS Interior Door Liners
- Environmentally friendly CFC & HCFC free refrigerants
- Field Reversible Door Swing
- Door opening accept 20" wide pan(s)
- Epoxy-coated shelves adjustable on 1" centers
- Automatic non-electric condensate disposal system
- Anti-corrosion coated evaporator coil
- Cord connected

**REACH-IN BLAST CHILLER
A BLAST CHILL/STORAGE REFRIGERATOR**

The VBC-75 is ideal for small to medium size foodservice operations, which require blast chilling capability. This model is capable of chilling 75 lb of food product to 38°F in approximately 90 minutes. The comprehensive control panel features built-in alarms and can control the chilling process with the food core temperature probes or the digital timer. At the end of the blast chill cycle, the cabinet automatically defrosts and reverts to a +38°F storage mode.

VBC-75

**UNDERCOUNTER BLAST CHILLERS
A BLAST CHILL/STORAGE REFRIGERATOR**

The VBC-70 and VBC-35 are ideal last chillers when space is an issue. Capable of chilling either 35 or 70 lb of food product to 38°F in approximately 90 minutes. The comprehensive control panel features built-in alarms and can control the chilling process with the food core temperature probes or the digital timer. At the end of the blast chill cycle, the cabinet automatically defrosts and reverts to a +38°F storage mode.

VBC-3535 lb blast chill capacity

VBC-7070 lb blast chill capacity

TURBO AIR 2-DOOR REFRIGERATOR

- Exterior mounted temperature system is easy to read
- Refrigeration system is designed with oversized evaporators and condensers for faster cooling and greater efficiency
- 300 series stainless steel construction on the exterior (including top and back), and interior. ensures a bright, dent-resistant and rust-free finish for years to come
- Bottom-mounted compressor for easy service.
- Adjustable vinyl-coated wire shelves are durable, heavy duty and fully adjustable
- Elegant design with contoured lines and rounded corners
- Recessed handles
- 49 cu ft; 1/3 hp condenser
- Self-contained system—no plumbing required. Simple installation

ICE MAKERS AND STORAGE BINS FROM IMI CORNELIUS

Producing from 200 to 2,500 lb (90 to 1,125 kg) of ice, IMI Cornelius ice makers lead the pack when it comes to quality and durability. Made for the rugged environments of the food service and hospitality industries, IMI Cornelius ice makers deliver the most performance for the lowest cost over a longer period. Whether it's a cuber, chunklet or flaker, IMI Cornelius ice making equipment always delivers a full bin of rock-solid ice. Models are available in 22", 27", 30", 44" and 48" (55 cm, 68 cm, 76 cm, 112 cm, and 121 cm) widths.

CORNELIUS ICE STORAGE BINS

- Quality construction
- One piece roto-molded cabinet
- Non-CFC foam insulation
- Corrosion proof
- Virtually indestructible
- Stainless steel door

CORNELIUS XTREME SERIES MODULAR ICE CUBER

The Xtreme family of Ice Makers are top-mounted to eliminate manual filling and match the dispensers perfectly. Both the ice maker and dispenser can be equipped with merchandisers to attract attention.

The ice harvest control system (patent pending) uses a special pressure transducer that has no moving parts and doesn't contact the water. It passed an extensive durability test that simulated 10 years of ice making (300,000 cycles) without production drift or failure.

- Environmentally safe Future Proof™ Refrigerant R-404a
- 100% front serviceability
- Programmable water control
- Compact design—22," 30," or 44"
- All stainless steel panels and frame
- Quick-change merchandising panel
- Microban® antimicrobial product protection inhibits stain and odor causing bacteria, mold and mildew.
- Cube Size: 5/8" x 7/8" x 7/8"

TRUE REFRIGERATED WORK TABLES

- Environmentally friendly (134A), refrigeration system, with airflow directed at pans for colder temps. Guided airflow provides uniform temperature in a 360° circle throughout cabinet for stay-fresh meats and cheeses, and colder crisper salads
- New NSF-7 listing
- All stainless steel front, top and sides; aluminum finished back
- S/S patented foam insulated cover keeps pans colder to lock in freshness—minimizes condensation
- Interior—attractive, NSF approved, white vinyl coated aluminum sides and top, coved corners and 300 series s/s floor
- Removable back hood and lid
- 5" diameter casters standard (legs available).
- Front breathing and recessed handles
- Removable cutting board of sanitary, tough, high density polyethylene
- Adjustable, heavy-duty, vinyl coated wire shelves (not available in drawer models)
- Foamed-in-place polyurethane high density cell insulation (CFC Free)
- Clear polycarbonate insert pans withstand sub-zero temperatures, dishwasher safe

COMMERCIAL DISPOSERS

Food waste disposers are the most sanitary and environmentally friendly way to deal with waste in a food service establishment. They are best suited for a typical restaurant with a

single door dishmachine. One disposer with a pre-rinse spray can handle up to 800 dishes per hour. Salvajor Disposers are available in 3/4, 1, 1-1/2, 2, 3, 5, and 7-1/2 hp. Choose from a cone assembly (CA) or a sink assembly (SA). Easily replace any major brand disposer with Salvajor adapter kits. 1 year full replacement warranty.

SCRAP MASTER

There isn't a faster way to scrap dishes!

The ScrapMaster is designed for situations where a pre-rinse spray simply can't keep up. Making quick work of dishes and trays, the ScrapMaster is perfect for school cafeterias or any food service establishment with a medium size dishmachine. It is an excellent alternative to a fresh water trough because of its labor and water savings.

Best suited for use with single or double tank conveyor dishmachines. Available with 2, 3, 5 or 7-1/2 horsepower disposer.

COLLECTOR SYSTEMS

Rather than grinding food waste, Salvajor Collectors collect food waste solids to be disposed of in the trash. Water soluble waste is washed harmlessly down the drain reducing bulk waste and weight. Collectors recirculate water giving them the same benefits as ScrapMaster and TroughVeyor. Collectors are widely used in communities that restrict the use of food waste disposers and are safe to use with grease interceptors and septic systems.

TROUGHVEYOR

The TroughVeyor is a solution for large food service establishment where typical scrapping systems can't keep up. Multiple operators scrap into a trough of recirculating water to keep up with the largest of dishmachines. Only using the water required by one disposer, the Troughveyor

is an excellent alternative to a fresh water trough or multiple disposers. Best suited for use with double tank or flight rackless conveyor dishmachines. Available with 3, 5 or 7-1/2 horsepower disposer.

JACKSON CONSERVER XL & CONSERVER XL2

The Conserver is a high-volume chemical sanitizing dish-machine built to conserve water and includes a built-in dispensing system for detergent, rinse additive, and sanitizer.

- Automatic 90 second timed wash, rinse & flush cycle
- 3 Built-in dispensing pumps
- 1.5 gal. per rack
- 74 racks per hour in XL2; 37 racks per hour in XL
- Wash/rinse thermometer
- Delimiting switch
- S/S bullet feet for leveling
- Incoming water pressure regulator
- Safety door switch

TEMPSTAR HIGH TEMPERATURE SANITIZING DISHMACHINE

The Tempstar is a fully automatic, Hi-Temp sanitizing upright dish-washer with totally electro-mechanical controls and built-in pressure regulator. Uses only 1.0 gal. of water per rack.

JPX-300H HIGH TEMPERATURE UNDERCOUNTER DISHMACHINE

Uses only 1.07 gal. of water per rack, with maximum capacity of 24 racks per hour. Two-minute totally automatic cycle. Incoming water pressure regulator; fresh water rinse rather than a recirculating rinse eliminates wash water contamination. 3/4 hp wash pump motor for excellent results.

GLASTENDER GT18+2 GLASSWASHER

Bartenders washing glasses during peak periods aren't able to wait on customers, causing missed orders and lost revenue. Free your bartender and increase profits!

- Washes up to 650 glasses per hour
- Pass-thru design
- Uses 16" round racks for speed and ease of transport
- Compact design
- Economical operation & easy maintenance

ET SERIES MULTI-USE UNDERCOUNTER DISHWASHERS

Operate a free-standing, complete warewashing center in only 48" of space! To do this, combine our ET-AF Undercounter with our Stainless Steel Table package. With 1-1/2 hp wash & rinse pump, prime switches, automatic chemical feed, 90 second complete time cycle, and hinged mounted control panel for easy service access.

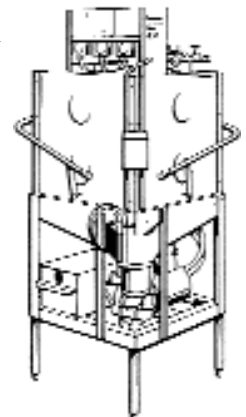

AMERICAN DISH SERVICE HIGH CAPACITY 5AG

It will take care of big jobs in no time at all. Watch dirty dishes disappear! This double-duty model is designed to multiply your dishwashing capacity and your profits. Hourly capacity is 1,600 to 2,000 dishes - and it is equipped to operate with Double Racks.

ADS 3D 3-DOOR DISHWASHER

A true convertible, with the features you want, such as; top-mount controls; exterior mounted chemical pump heads; quick connect, easy service access, electrical controls; true 3-door design with only 2 doors opening in either configuration (to eliminate water on back wall and keep doors in alignment); Built-in delimiting switch; large capacity internal scrapper; no adjustment solenoid replacement; 1-1/2 hp wash & rinse pump; prime switches; automatic chemical feed; Nylatron® strips to protect S/S door.

CAPTIVE-AIRE HOOD SYSTEMS

Captive-Aire has been manufacturing quality ventilation packages for over 26 years. Our integrated systems are engineered for maximum performance, safety, and energy efficiency. Captive-Aire's diverse product line enables you to specify exactly what you need for your total kitchen ventilation needs.

The Direct Gas Fired Make-Up Air package is designed to deliver tempered make-up air for installations requiring frequent air changes. Units are designed for natural and propane gas applications, and for indoor or outdoor installation.

AD Series

Captive-Aire's flagship ND hood is a wall canopy exhaust-only unit that operates at low CFM. It is UL Listed for use over 450°F, 600°F, and 700°F cooking surface temperatures.

ND

The Air Handler Unit is the heart of the modular fan system. It is designed to deliver fresh outside make up air for installations requiring frequent air changes. Units are designed for indoor or outdoor applications, and are available in vertical or horizontal discharge configurations. Available in sizes up to 22,000 CFM, and external static pressures up to 2" W.G.

A Series

FLAME GARD TYPE 3 GREASE FILTER

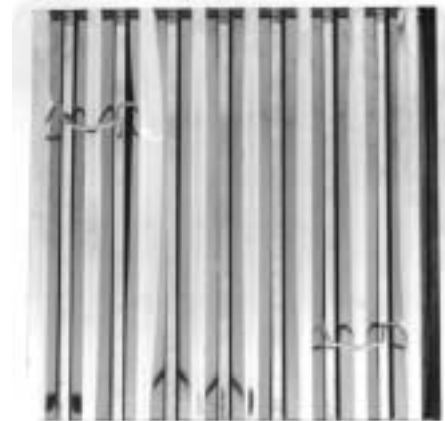

- Available in stainless steel, galvanized steel, and aluminum.
- Unique frameless design with full filter height baffles to maximize the filter's available capture area while at the same time increasing the filter's free area.
- Unlike competitive products, our full filter height baffles eliminate dead air space at top & bottom of filter.
- Filters 100% of grease laden air 100% of the time.
- Impossible for grease laden air to short-circuit or avoid making turns through full filter height overlapping baffle system.
- Realistic, tested static pressures.
- 2 handles included.
- 2-piece die-stamped construction makes baffles a structural part of the filter.
- U.L. classified, made in the U.S.A., and competitively priced to meet your budget
- All type 3 filters are 1 1/2" thick.

555940Baffle Filter 20"H x 16"W

Total Annual Heating Cost	\$2,623	\$4,874
Energy Savings When Using Rev-Low		\$2,250

The Spring Air Rev-Low hood is a revolutionary idea in commercial kitchen ventilator design. Rev-Low saves you valuable heating and air conditioning dollars by minimizing and controlling the total exhaust air over individual appliances across the entire hood section.

The Rev-Low allows you to not only fine tune each section to whatever specific appliances you have under it now, but gives you total flexibility to add, subtract or replace them in the future, knowing you'll have the right exhaust volume to do the job.

Spring Air exhaust systems save you money!
